THURSDAY MORNING, JUNE 5, 1862.

Election Returns.

The election returns given by us this morning may be relied on as being very near correct, many of them being compiled from the poll books before the ensealing of the same, and several from the official returns already received. The question is no more as to who is elected, but as to what majority the Union ticket has gained in the State. The majority thus far heard from will not be short of 2,300; thus setting beyond all question the success of the Union candidates on the State ticket. It is also evident that a large majority of Union men have been elected to the Legislature and the various county offices that were to be filled. In fact, we have not yet heard of a single candidate on the Secesh ticket having been elected to the Legislature, though it is claimed that in one or two instances the so-called Democracy have been successful; this, however, is yet in doubt. In no election ever held in this State before, has a like result been realized by any party,—in which such an overwhelming majority of the people have decided the contest between the candidates for office. The Union party have been successful in every instance thus far heard from, and in several precincts have actually received a unanimous vote. The success of the Union ticket has exceeded the most sanguine expectations of its warmest friends and supporters. It was feared that there were more in the State than what the result has proven to be, of those who sympathized with or secretly cherished treason and rebellion to their country in their hearts; but we rejoice to record the fact that the people of Oregon are true and loyal to the Government, and that they have given such an endorsement of the Administration as cannot be questioned or doubted. We hail the victory as a bright omen of the future greatness and prosperity of Oregon, as by this success she will have gained the esteem and confidence of her sister States of the Union, and be regarded as a bright and shining star in the glorious galaxy on our national escutcheon.

A RICH TIME.—We learn that the people of St. Helens had a jolly time among them on the day of election. About 49 fights, no less, is said to have occurred; 67 shirts badly torn, 36 bloody noses, 24 black eyes, 16 back dusted, 140 buttons lost, 12 pair of suspenders bursted, 8 kegs of lager and 19 gallons of whisky consumed, the ground considerably torn up, besides innumerable scratches, kicks, bites, etc., etc., is said to have been the result of the day's performances. We cannot vouch for the truth of the above, but give it simply as told to us. However, notwithstanding this somewhat enthusiastic demonstration, it is thought that the Union ticket gained a small majority.

HE GIVES IT UP.—We see it stated in the Jacksonville *Civilian* of May 31st, that the connection of D. Wm. Douthitt as editor of that sheet, ceased with that number. A brief and not very brilliant career. We shall soon expect to hear that the paper is also "played out."

The voters of Falls precinct, Wasco county, were denied the privilege of voting by a secesh judge of election, who had carried away the poll books and said "he would not have anything to with the election." Reason—the Union men were in the majority.

A WASHINGTON POSITION.—Col. Tom Stackpole was appointed Captain-General of the White House grounds by President Pierce, which position he still holds. He was recently met by Major Ben. B. French, the Superintendent of Public Buildings, who cautiously informed him that certain politicians were after his situation, and were about to report him a Secessionist, and advised the Colonel to be on the lookout. A few days after, these worthy sons of New Hampshire met again, when Ben. inquired of the Colonel whether he had thought about the matter. "Yes," replied Tom, "I've thought of it, and concluded not to trouble myself about it at all." "Why don't you?" asked the Major; "they'll have you out." "Oh!" said Tom, "I've consulted a lawyer, and he tells me not to have any fears about it; they can't start me." "Consulted a lawyer?" returned Ben., "well, who was it that gave you such advice as that?" "Well," said Tom, "it's one of the smartest lawyers in the city. He came from Illinois, and his name is—Lincoln. He says I needn't be afraid; they can't hurt me." Major French now thinks that the Colonel will not be removed.

How to punish a hungry man—drive a *steak* into him.

ELECTION RETURNS.

The majorities in the counties heard from are about as follows: Multnomah, 440; Columbia, 17; Clatsop, 43; Wasco, 168; Clackamas, 300; Lane, 70; Benton, 42; Marion, 663; Yamhill, 243; Washington, 227. Total, 2,313. This majority will be increased by full returns from these counties.

Multnomah County.

The returns from this county are not yet all in. We hope to give the full returns to-morrow. Sauvie's Island gives the Union ticket 4, opposition, 7. Willamette—Union, 34; opposition, 10. Sandy—Union, 25; opposition, 1. St. Johns, 24; opposition, 1. Multnomah No. 1 and 2 cast 59 votes—all Union!

Wasco County.

The following are the official returns from Dalles Precinct:

Congress—J. R. McBride, 276; A. E. Wait, 117.

Governor—A. C. Gibbs, 281; J. F. Miller, 113.

Secretary of State—S. E. May, 278; G. T. Vining, 110.

Superintendent of Schools—E. P. Fitz-Gerald, 209; H. P. Isaacs, 63.

Surveyor—L. F. Cartee, 271.

J. S. Reynolds and J. P. Booth were elected Justices of the Peace, and George Erskine and H. W. Hodrick, constables, for Dalles Precinct.

At Fifteen Mile Precinct the vote stands, Union, 30, Opposition, 14.

There can be no doubt that Wasco county has gone Union by a large majority.

Yamhill County—Complete.

Congress—McBride, 394; Wait, 169.

Seat of Government—Salem, 86; Portland, 58; Hillsboro, 1.

Lane County.

In Lane county the average majority for the Union ticket is about 70.

Marion County.

Marion county gives majorities for the Union candidates as follows: McBride, 623; Gibbs, 650; May, 600; Gordon, 663; Cook, 680. The entire Union county ticket elected by a large majority.

Benton County.

The Union State ticket carries Benton county by about 42 majority; the county ticket by from 25 to 50, except Clerk. Opposition candidate for Clerk elected by 8 or 10 majority—not official.

Shirley Brooks, the author, writes from London to a friend in Cincinnati as follows:

Whenever you have an opportunity, assure your countrymen, on the authority of one who knows his countrymen well, that our hearts are with America in this her fiery trial, and that those who try to propagate a belief that England regards her with aught but sympathy, deserve a fate like that recently awarded to Captain Gordon.

GENERAL SIGEL.—Gen. Sigel recently received an intimation that some of his countrymen were desirous of contributing toward a testimonial for his benefit. His reply was, that if his countrymen were desirous of doing something that would be appreciated by him, they could do nothing more fitting or appropriate than to raise some $20,000 or $30,000 for the benefit of the families of German volunteers.

No Later News.

The stage last night brought no later news from the East. The Sacramento *Union* of the 26th, says:

There is strong reason for believing that important events have transpired in Virginia and before Corinth. McClellan's position alone need give rise to any apprehension. A last effort to save Richmond may have been made by Davis and Johnson, on the 24th or 25th, and there is danger that the young General-in-Chief has been attacked before being able to get the bulk of his army across the Chickahominy, in which his position for withstanding an assault would be extremely disadvantageous. On Friday, 23d, when last heard from, he had succeeded in crossing two divisions. From Halleck, we have no later advices; but in that quarter there is nothing to be feared. The rebels may have made a desperate fight at Corinth, but they are outnumbered, out-generaled, and inferior in everything essential to success. In all probability Sunday, 25th May, is another addition to the memorable Sabbaths of this war.

The same paper of the 29th, has the following:

We are without telegraphic communication with the seat of war and in darkness as to the important events which have undoubtedly occurred since the date of our last dispatches.

The San Francisco telegraphic reports to the *Union*, under date of May 28th, says:

A primary election by citizens in favor of sustaining the present National Administration, is called for the 3d of June, to elect delegates to a State Convention to meet in Sacramento June 17th.

An association of Chinese, called the Hop Wo Company, has been incorporated. It proposes to assist Chinese to come to this country and to return to China, to relieve the sick and bury the dead.

A lot on Kearny street, near Clay, twenty-five by fifty feet, sold to-day at auction for $6,975. A lot on Mission street, near Beale, forty-five by one hundred thirty-seven feet, brought $3,300.

Wool sold for export at fourteen and thirty cents.

From the Upper Columbia and the Mines.

The following items are from the *Mountaineer* of June 1:

BITTER ROOT VALLEY.—The winter has been very severe; men and animals suffered much, and many died from the cold. One man in Lieut. Mullan's expedition *froze his feet in bed.*

Capt. Richard Grant, out of over 200 head of cattle, has only 40 left. On the Reserve, of 400 head, only 60 are saved. Dr. Lansdale and Mr. Henry Brooks lost nearly every hoof, and all lost more or less. Cows suffered most; work cattle least. The Indians have lost nearly all their cattle and horses.

INDIAN WAR.—Owing to a small fight about some runaway horses, in which fourteen Nez Perce, two Flat-heads, and five or six Snakes were killed, the Nez Perce and Flat-heads have declared war against the Bannacks, and there is but little doubt but that with these brave tribes a serious war will be the result.

INDIAN MASSACRE.—On the 23d April a party of fifteen men left the Bitter Root Valley, bound for Salmon river eight days' travel with pack animals. The leaders were Messrs. McKnight, Gerd and Louis Simmons. In one night the Bannacks stole all they had—some are killed, and some supposed to be starved to death. Mr. Gerd was found by a miner, who was prospecting 150 miles up Salmon; he was nearly starved to death. He is, as yet, the only one found.

A man who has been known as Old Gold Tom has made enough to keep him for several years to come by mining in the Flat-head country.

DEER LODGE MINES.—Lately a party of 4 or 5 men went from the Flat-head country into the Deer Lodge Valley prospecting; after a day and a half prospecting, they were satisfied. The first pan was one cent, the second was 42 cents, and the average of their prospects 7 cents to the pan.

WALLA WALLA MARKETS.—Flour is worth $7 a sack; sugar, 22 and 30 cents; bacon 37½ cents per pound; tea, $1 50; coffee, 40; dried apples, 30; lumber, $50.

POWDER RIVER MINES.—About 200 men are in the mines. The gold yet found is on the flats and in the gulches. Pieces of $2 50 to $3 have been found, and the character of the metal is generally what we may call coarse gold—it runs in veins. Those who go there must not expect to make large sums. Good wages is all that at present can be looked for—say from $5 up. The largest sum yet taken out has been $74 for three men, in one day. Hundreds are there who declare that there is not any gold.

Wilson's Gulch pays 14 claims all the way. The Flat on top pays, and the left hand fork, but no more.

The strippings are 4 to 6 feet deep, and thence to the bed rock pays.

Comstock has found a quartz lead—the gold is visible in it, but its value and size are not yet determined.

ORO FINO.—O. H. Wakefield, Esq., just down from Oro Fino, brings favorable accounts from the mines. The claims that were opened last season were paying well, and a large amount of treasure was being got out. There was a great demand for hands, and $5 and board was the usual rate paid. The mines on the South Fork also were giving out handsome returns, and there was every indication of a highly successful business season.

DES CHUTES RAILROAD.—All work, beyond a few hands employed in grading, has been suspended on the Des Chutes Railroad. It is hardly possible that this great improvement will be completed the present season.

Illinois has fifty-five regiments now in the field. Of these twenty-eight are with Halleck, five at Pea Ridge with Curtis, two with Mitchell and one with Banks. Four other regiments are ready to march. Of cavalry, the State has thirteen full regiments in service.

The business of the Washington Post Office has grown enormously. During the quarter ending March 31st, 792,281 franked letters were forwarded, stamps were sold to the value of $60,000, and the carriers delivered 162,323 papers.

If the dress of some men's persons were as shabby as that of their minds, they would be indicted and punished for indecent exposure.

SHARPSHOOTERS.—The Sacramento *Union* in speaking of this corps of effective force, says:

Berdan's Sharpshooters appear to have created a lively sensation among the rebels in the York peninsula. Their daring approach to the enemy's lines and their astonishing certainty of aim, have surprised and gratified the Union commanders, and they are now recognized as constituting a most valuable arm of the service. Their exploits are the theme of continual eulogy among the correspondents of the press, and a number of their best shots have already become famous characters. It is now discovered that the organization of this corps was a happy idea, and Colonel Berdan is praised accordingly. Whenever an enemy shows himself within the sharpshooters' range, he is picked off with fatal certainty. Guns are rendered useless by the swift destruction of those detailed to man them. Field batteries are disabled by the killing of men and horses. The sharpshooters are trained to take advantage of any and every cover. A gentle swell of the ground, a clump of high grass or bushes, a tree, or anything that will afford a temporary screen for a stealthy approach, will be instantly detected by the experienced eye and rendered available for that purpose. The uniform is usually adapted to this special service, so as to be confounded with the hues of the ground or the bushes at the distance of a few hundred yards.

Coughs. The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement.

The attention of the Ladies and Gentlemen is respectfully solicited to the New Styles of DRESS GOODS and CLOTHING, just received by the steamer, consisting of French Poplins, Brilliants, Challie, DeBeges, Silks, Gros de Rhines, Delaines, Ducals, French Hats, New Style Bonnets, and the latest Styles of Paris Gros du Rhone Cloaks, together with a full assortment of Spring Sacks, Business Suits, Summer Raglans, French Cloth Frock Coats, Doeskin Pants, [illegible] Silk Vests, and New Style Hats, all intended expressly for the present season. All the articles are now ready for sale, and can be seen at HARRIS', opposite the Upper Wharf.

NEW TO-DAY.

City Ordinance.

AN ORDINANCE to amend Ordinance No. 105, entitled "An Ordinance to impose licenses on the sale of real estate, merchandise, or other personal property at public auction."

The People of the City of Portland do ordain as follows:

SECTION 1. That section two of Ordinance No. 105, and referred to in the title of this Ordinance, be and the same is hereby amended by striking out the word "five" in the fourth line, and that said section be made to read as follows, to wit: Every person applying to the City Collector for a license to sell or cry off any real estate merchandise or other personal property at public auction, between the hours of sunset and sunrise following, shall receive from such a license to sell as aforesaid for the term of one year, on the payment to him of the sum of two hundred dollars, which license shall not be transferable.

SEC. 2. That all persons who may be licensed under the provisions of the Ordinance of which this is amendatory, shall be subject to such rules and regulations as may hereafter be provided by ordinance regulating the conduct and management of the said business.

SEC. 3. That this ordinance shall take effect and be in force from and after its approval by the Mayor.

BROTHER JONATHAN.—The origin of this as applied to the United States, is said as follows: When General Washington, being appointed Commander-in-Cheif of army of the Revolutionary War, came to usetts to organize it, and make pro- ons for the defense of the country, he a great want of ammination and other y necessary to meet the powerful foe he to contend with, and great difficulty t ain them. If attacked in such a condition, ause at once might be hopeless. On one at that anxious period, a consultation officers and others was had, when it no way could be devised to make such ations as were necessary. His Excel Jonathan Trumbull, the elder, was Governor of the State of Connecticut, on judgment and aid the General placed greatest reliance, and remarked, "We consult Brother Jonathan on the sub- ." The General did so, and the Governor successful in supplying many of the wants army. When difficulties afterward , and the army was spread over the coun- came a by word, "*We must consult* Broth athan." The term Yankee is still ap- d to a portion, but "Brother Jonathan" now become a designation of the country. John Bull has for England.

A NORTHERN MAN IN THE SOUTHERN AR- A letter has been received in Boston Mr. Wallace Wiggin, a printer, formerly ployed in Lynn, and later in the office Boston *Post*, which states that he is in the hospital at Louisville, Ky., having an arm in the battle of Shiloh. He has ded several years at New Orleans, and impressed into a company of Home ards. Just previous to the battle, Beaure- d sent to New Orleans for reinforcements, d several companies of the Home Guard were compelled to go in answer to his sum- . They arrived on the field the first day f the battle, and were at once sent forward. Mr. Wiggins was struck by a cannon ball and lost his right arm. With others of the rebel wounded, he was put in one of the Fed- al tents which were captured on the first day of the battle, and there remained when the rebel army retreated the next day, until he was found by some of the Federal sol- diers, and in their care he was taken to Louis- ville, where he now remains.—*Journal.*

Prairie Mounds.

As all parts of the world, and especially the western part of North America, abounds in wonders in a philosophical point of view, as regards Natures' works, there is abundant room to tax the ingenuity and patience of the mind of man to any extent for ages to come, before he can exhaust the subject in any one science whatever. My mind was led to this subject recently, of cause and effect, in crossing the country from Puget Sound to Columbia river, in viewing the Mounds. But everybody has seen or heard of the mounds in the Western States, which were artificial fortifications of a race of people, who lived in times immemorial, and one now probably extinct, or merged into other tribes of the natives. But the mounds that I am about faintly to describe, are of a different character altogether from those last mentioned. Some of these mounds, one situated on the stage road from Olympia, the capital of Washington Territory. Commencing some twelve miles from the place, and extending seven or eight miles in a southerly direction, and, as I am informed, extends westerly to the coast range of mountains, on the Pacific ocean, there is considerable uniformity in size and hight, of these mounds, and are not to be counted in rows, like cocks of hay, though there is considerable resemblance. But in course of time, streams of water, and recently the plow of the husbandman, have disfigured and, in some places, obliterated some of them entirely. Of the extent of these mounds my knowledge is very limited, having crossed them from north to south, in the stage, having a little more than a bird's-eye view, but am informed that they are extensive in other directions, but the antiquarian, who is interested in the subject, should spend a week or two on the ground before he could make up his mind, and do full justice to the subject, as this is an interesting portion of our country; and I understand several theories have been advanced as the cause of these mounds, which have all failed of being satisfactory to the public, for their originality. I will now give another view, which, I have no doubt, is the true one, as I see no difficulty in my theory whatever. It is generally conceded by all that water has once covered all the land on this coast, and receded, at a period not very remote; and I write this to correct the idea that many have got, that these mounds were caused by the action of water. There is no doubt that the water once covered the land. However that may be, it is very probable that these mounds were thrown up afterwards. Be that as it may, they now stand as monuments of the forces that have been and are now at work altering the face of Nature continually. East of these mounds, two high mountains of the Cascade range, St Helens and Rainer, are situated; one of them still a volcano, although covered with perpetual snow. These mountains have been active volcanoes; no doubt, in ages gone by, and perhaps earthquakes in this, as in other portions of the world, overwhelming towns and cities in a moment of time; and, it is probable that no part of the globe has been exempt from the forces that are now at work underground. This platteau, where the mounds are situated was, probably, once a large plain, and the mountains easterly had an underground crater, or passage for the lava at the time of the great eruption, whose course was westerly toward the sea; but coming in contact with the base of the coast range of mountains, would have a reaction and set back, and expand, and break out in ten thousand places like a boiling cauldron, throwing up lava and red-hot stones to a great hight, and fall back, where they now may be seen in rows between the mounds. How long this eruption lasted I am not able to determine, as every one may form his own conjecture, though it must have been considerable time, perhaps years, before the elements would have time to cool. But imagination would fail me to describe one truth of the sublime spectacle that a spectator, if any were present, to witness the terrible concussion of the elements that might be witnessed at the time, all the artillery at the battle of Bull Run, or the thunders of the cataract of Niagara, could they be seen at once, would not be adequate to one half of what might be witnessed at Mound Prairie.

Portland, May 1862.

Be Just and Fear Not.—Never let your honest conviction be laughed down. You can no more exercise your reason if you live in constant dread of ridicule, than you can enjoy your life; if you think it right to differ from the times, and to make a point of morals, do it however pedantic it may appear, do it—not for insolence, but seriously and gradually, as if a man wore a big soul in his own bosom, and did not wait till it was breathed into him by the breath of fashion. Be true to your manhood's conviction, and in the end you will not only be respected by the world, but have the approval of your own conscience.—*Corn Planter.*

FAMILY
SEWING MACHINES

ARE UNEQUALLED BY ANY FOR

BEAUTY AND SIMPLICITY OF CONSTRUCTION

—AND—

Efficiency in Working.

A GOOD SEWING MACHINE SHOULD BE WELL MADE, simple in its construction, and easily kept in order; should make a TIGHT LOCK STITCH, alike on both sides of the material, and should sew any and all materials that can be sewed.

It should be able to use cotton, thread, or silk directly from the spool, and to sew from coarse to fine and from thick to thin, with rapidity, and without changing the tension. It should also be able to make the tension greater or less on both the under and upper threads, and with uniformity; and should have a *straight* needle, curved needles being liable to break.

The needle should have perpendicular motion—this is absolutely necessary for heavy work.

It should be able to bind with a binder, hem with a hemmer, should stitch, fell, run and gather, and should be always ready to work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk, above or below, to correspond with any two colors of cloth to be united.

It should be able to make a long or short stitch, and to fasten off the seam, and commence sewing tightly at the first stitch, and to run easily, and make but little noise.

It should have a wheel feed, as others are in constant contact with the work.

It should not be liable to get out of order, neither should it require a screw driver or wrench to set the needle.

It should not be liable to oil the operator's dress.

It should not form a ridge on the under side and ravel.

Of all diseases the great first cause,
Springs from neglect of Nature's laws.

To the Afflicted.

Suffer not when a cure is guaranteed in all stages of secret disease—Self Abuse, Nervous Debility, Syphilis in all its stages, Strictures, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus Dance—and all diseases arising from a derangement of the sexual organs—such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines prescribed are pleasant without odor, entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy and permanent cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected—a majority of cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which with the disease, hastens the sufferer into a rapid consumption. But should [illegible] the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Self Abuse is another formidable enemy to health, for [illegible] so destructive [illegible] the system, drawing its thousands [illegible] down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust vigorous health.

[illegible] Irregularities and all its diseases of males and females treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures. [illegible] in every part of the State, Oregon and Washington Territory by patients communicating their symptoms by letter.

All [illegible] strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco.
